

CONTENTS

<i>Ibrayev A.T.</i> Method for constructing the commutative algebra of quaternion and octonion	5
<i>Aldashev C. A., Kanapyanova Z. N.</i> Ixed problem for three-dimensional hyperbolic equations with degeneration of type and order.....	13
<i>Seitmuratov A., Aitimov M. Zh., Seitkhanova A., Ostayeva A., Tulegenova E., Janyssova D., Shamilov T.</i> Solution of private tasks of cylindrical shear waves (in the case of the distribution of constant values $\gamma - \alpha + 2 > 0$ and $\alpha = \beta$).....	19
<i>Aldashev C.A., Kazez E.</i> Correctness of the mixed problem for one class of degenerate multidimensional hyperbolo-parabolic equations.....	27
<i>Babich M.Yu., Butaev M.M., Tarasov A.A., Ivanov A.I., Malygin A.Yu., Sauanova K.T., Sagyndykova Sh.N.</i> Functions of distributions of amounts of uniforally distributed random values of times of processing the request of the infocommunication system.....	36
<i>Sadirmekova Zh.B., Sambetbayeva M.A., Tussupov J.A., Altynbekova Zh.T.</i> Building an information system to support scientific and educational activities based on the ontological model of the subject area.....	45
<i>Minglibayev M. Zh., Kosherbayeva A.B.</i> Equations of planetary systems motion.....	53
<i>Sarsembayeva A., Belisarova F., Odsuren M., Sarsembay A., Tutebayeva A., Orazymbet A., Abyshev M.</i> Definition of the reconnection rate of most powerful solar flares.....	61
<i>Serikbayev N.S., Nugmanova G.N., Meirmanova A.A.</i> Gauge equivalence between the two-component generalization of the (2+1)-dimensional Davey-Stewartson I equation and F - spin system	68
<i>Aitzhanov N.M., Ongar B., Bissenbaeyev P.A., Baitenov E.S., Zhanibekuly A.</i> Assessment of energy efficiency and possibility of use in the networks of industrial enterprises voltage stabilizer with energy saving function.....	74
<i>Boshkayev K., Konysbayev T.K., Kurmanov E.B., Muccino M.</i> Dark matter properties in galaxy U5750.....	81
<i>Kairatkyzy D., Quevedo H. C.</i> Mass distribution of dark matter halo and scale evolution of early type galaxies.....	91
